### **Patience and Endurance**

For seeing this world change,  
Let us change our mindset ...  
Be positive.  
Let us face obstacles with fortitude,  
Be superb and skilled.  
All we need is a little patience and endurance.

Let us surround ourselves with cheerful people.  
Spend some time, away from complaints....  
Stay away from excuses,  
Be grateful for all that we have,  
All we need is a little patience and endurance.

Prepare ourselves for various challenges,  
Before it's too late, savour every moment.  
Try to make the most  
.... for no one knows what your future holds.  
All we need is a little patience and endurance.

Life is incomplete .... without surprises,  
Find solace in life's music,  
Believe in yourself.  
Spread compassion,  
All we need is a little patience and endurance.

Let us listen to the songs of birds,  
To raise our spirits.  
Live life merrily;  
It is the motion that counts, not the length....  
Let us be courageous,  
Make our mind victorious.  
All we need is a little patience and endurance.

Make the most of the situation.  
All we need is a little patience and perseverance.
